Product Name: JCB GEAR OIL HP 90

Not classified as hazardous

1. Identification

GHS Product Identifier

JCB Product Codes: 4000/0301C, 4000/0305C, 4000/0303C, 4000/0345C

JCB Construction Equipment Australia

Address: 13 Yagine Close, Perth Airport WA 6105 Australia

Telephone/Fax Number: Tel: 1300 522 232

Recommended use of the chemical and restrictions on use

Supplied as a multigrade hypoid gear oil for use in suitable applications only.

Other Information

This SDS was issued by Fuchs Lubricants (Australasia) Pty. Ltd.

2. Hazard Identification

GHS classification of the substance/mixture

AUSTRALIA

Not classified as hazardous according to Work, Health and Safety Regulations (WHS), Australia.

Not classified as dangerous goods according to the ADG Code.

NEW ZEALAND

Not classified as hazardous according to the Hazardous Substance (Minimum Degree of Hazard) regulations 2001.

3. Composition/information on ingredients

<table>

4. First-aid measures

Inhalation

Remove victim from exposure - avoid becoming a casualty. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered. If symptoms persist seek medical attention.

Ingestion

DO NOT induce vomiting. Rinse mouth thoroughly with water. If symptoms develop seek medical attention.

Skin

Remove contaminated clothing and wash skin thoroughly with soap and water. If symptoms develop seek medical attention.

Eye contact

Immediately irrigate with copious quantity of water for at least 15 minutes. Eyelids to be held open. If symptoms persist seek medical attention.

First Aid Facilities

Normal washroom facilities.

Advice to Doctor

Treat symptomatically.

Advice to Doctor

Refer to section 11.

5. Fire-fighting measures

Suitable extinguishing media

Use CO2, dry chemical or foam.

Unsuitable Extinguishing Media

Straight streams of water.
JCB GEAR OIL HP 90

Not classified as hazardous

Combustion products may include oxides of carbon, nitrogen and sulfur as well as unidentified organic and inorganic compounds.

Fire fighters to wear self-contained breathing apparatus if risk of exposure to vapour or products of combustion.

No special hazards arising from the use of the product.

6. Accidental release measures

Spills & Disposal
- Contain - prevent contamination of drains and waterways.
- Use absorbent (soil or sand, sawdust, inert material, vermiculite).
- Collect and seal in properly labelled drums for disposal.
- Dispose of waste as per Local, State and Federal Land Waste Management Authorities.

Personal Precautions
- Use suitable protective equipment (Section 8).

Environmental Precautions
- Do not discharge into the drains/surface waters/groundwater. Do not discharge into the subsoil/soil.

7. Handling and storage

Precautions for Safe Handling
- Put on appropriate personal protective equipment (see Section 8). Workers should wash hands and face before eating, drinking and smoking. Take precautionary measures against static discharges. Keep containers tightly closed when not in use. Empty containers retain product residue. Do not reuse container.

Conditions for safe storage, including any incompatabilities
- Store in a cool, dry, well-ventilated area away from sources of ignition, strong oxidizing agents and foodstuffs.

8. Exposure controls/personal protection

Exposure Controls, Personal Protection

Occupational exposure limit values
- No value assigned for this specific material by the National Occupational Health and Safety Commission (Safe Work Australia).
- National Exposure Standards:
  - Oil mist- TWA 5mg/m3, STEL 10mg/m3

Biological Limit Values
- No biological limits allocated.

Appropriate engineering controls
- Maintain concentration below recommended exposure limit. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

Respiratory Protection
- If engineering controls are not effective in controlling airborne exposure then respiratory protective equipment should be used suitable for protecting against airborne contaminants. Final choice of appropriate breathing protection is dependent upon actual airborne concentrations and the type of breathing protection required will vary according to individual circumstances. Reference should be made to Australian/New Zealand Standards AS/NZS 1715/1716.

Eye Protection
- Safety glasses, goggles or faceshield as appropriate.

Hand Protection
- Impervious gloves, e.g. nitrile rubber or viton gloves.

Body Protection
- Overalls or similar protective apparel. Enclosed footwear.

9. Physical and chemical properties

Appearance
- Clear amber liquid

Odour
- Characteristic
Safety Data Sheet

10. Stability and reactivity

Reactivity: Reacts with incompatibles.
Chemical Stability: Stable under normal conditions of use and storage.
Conditions to Avoid: Heat and other sources of ignition.
Incompatible Materials: Strong oxidizing agents.

11. Toxicological Information

Toxicology Information:
Ingestion: No adverse effects expected if swallowed in small doses. Ingestion of large quantities may cause gastro-intestinal effects.
Inhalation: Not normally considered to be a hazard due to the non-volatile nature of the product. Inhalation of oil mist/vapour from heated material may cause irritation of the upper respiratory system.
Skin: Contact with skin may result in irritation. Prolonged or repeated skin contact may lead to irritation and dermatitis.
Eye: May cause slight eye irritation.
Respiratory sensitisiation: Not considered to be a respiratory sensitisisation.
Skin Sensitisation: Not considered to be a skin sensitisisation.
Germ cell mutagenecity: Not considered to be a mutagenic hazard.
Carcinogenicity: Not considered to be a carcinogenic hazard.
Reproductive Toxicity: Not considered to be toxic to reproduction.
STOT-single exposure: Not expected to cause toxicity to a specific target organ.
STOT-repeated exposure: Not expected to cause toxicity to a specific target organ.
Aspiration Hazard: Not considered to be an aspiration hazard.

#### 13. Disposal considerations

Dispose of waste according to federal, EPA, state and local regulations.

#### 14. Transport information

- **Transport Information**
  - Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG).
- **UN Number (Air Transport, ICAO)**
  - Not regulated for air transport according to International Air Transport Association (IATA) Dangerous Goods Regulations.
- **IMDG UN No**
  - Not regulated for sea transport according to International Maritime Dangerous Goods (IMDG).

#### 15. Regulatory information

- **Poisons Schedule**
  - Not Scheduled

#### 16. Other Information

**Date of preparation or last revision of SDS**  
- Issue Date: 29/08/2014  
- Supersedes Issue Date: Not applicable.  
- Reason(s) for issue: First issue.

**Literature References**
