1. Identification

GHS Product Identifier
4571
JCB HYDRAULIC FLUID HP 46

JCB Product Codes: 4002/0801C, 4002/0805C, 4002/0803C

Company Name
JCB Construction Equipment Australia

Address
13 Yagine Close,
Perth Airport
WA 6105
Australia

Telephone/Fax Number
Tel: 1300 522 232

Emergency phone number
1300 522 232. After Hours: +61 400 229 218.

Recommended use of the chemical and restrictions on use
Hydraulic oil.

Other Information
This SDS was issued by Fuchs Lubricants (Australasia) Pty. Ltd.

2. Hazard Identification

GHS classification of the substance/mixture
AUSTRALIA
Not classified as hazardous according to Work, Health and Safety Regulations (WHS), Australia.
Not classified as dangerous goods according to the ADG Code.

NEW ZEALAND
Not classified as hazardous according to the Hazardous Substance (Minimum Degree of Hazard) regulations 2001.

3. Composition/information on ingredients

4. First-aid measures

Inhalation
Remove victim from exposure - avoid becoming a casualty. If symptoms develop seek medical attention.

Ingestion
DO NOT induce vomiting. If symptoms develop seek medical attention.

Skin
Remove contaminated clothing and wash skin thoroughly with soap and water. If symptoms develop seek medical attention.

Eye contact
Immediately irrigate with copious quantity of water for at least 15 minutes. Eyelids to be held open. If symptoms develop seek medical attention.

First Aid Facilities
Normal washroom facilities.

Advice to Doctor
Treat symptomatically.

Most important symptoms/effects, acute and delayed
Refer to section 11.

5. Fire-fighting measures

Suitable extinguishing media
Use CO2, dry chemical or foam.

Unsuitable Extinguishing Media
Straight streams of water.
Infosafe No™ 5FVLJ  
Issue Date: October 2019  
ISSUED by FUCHS

Product Name: **JCB HYDRAULIC FLUID HP 46**

---

**Not classified as hazardous**

| Hazards from Combustion Products | Combustion products may include oxides of carbon, nitrogen and sulfur as well as unidentified organic and inorganic compounds. |
| Special Protective Equipment for fire fighters | Fire fighters to wear self-contained breathing apparatus if risk of exposure to vapour or products of combustion. |
| Specific hazards arising from the chemical | No special hazards arising from the use of the product. |

---

### 6. Accidental release measures

| Spills & Disposal | Contain - prevent contamination of drains and waterways.  
Use absorbent (soil or sand, sawdust, inert material, vermiculite).  
Collect and seal in properly labelled drums for disposal.  
Dispose of waste as per Local, State and Federal Land Waste Management Authorities. |
| Personal Precautions | Use suitable protective equipment (Section 8). Avoid contact with spilled material. |
| Environmental Precautions | Do not discharge into the drains/surface waters/groundwater. Do not discharge into the subsoil/soil. |

---

### 7. Handling and storage

| Precautions for Safe Handling | Put on appropriate personal protective equipment (see Section 8). Workers should wash hands and face before eating, drinking and smoking. Take precautionary measures against static discharges. Keep containers tightly closed when not in use. Empty containers retain product residue. Do not reuse container. |
| Conditions for safe storage, including any incompatibilities | Store in a cool, dry, well-ventilated area away from sources of ignition, strong oxidizing agents and foodstuffs. |

---

### 8. Exposure controls/personal protection

| Occupational exposure limit values | No value assigned for this specific material by the National Occupational Health and Safety Commission (Safe Work Australia).  
National Exposure Standards:  
Oil mist - TWA 5mg/m³, STEL 10mg/m³ |
| Biological Limit Values | No biological limits allocated. |
| Appropriate engineering controls | Maintain concentration below recommended exposure limit. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits. |
| Respiratory Protection | If engineering controls are not effective in controlling airborne exposure then respiratory protective equipment should be used suitable for protecting against airborne contaminants. Final choice of appropriate breathing protection is dependent upon actual airborne concentrations and the type of breathing protection required will vary according to individual circumstances. Reference should be made to Australian/New Zealand Standards AS/NZS 1715/1716. |
| Eye Protection | Safety glasses, goggles or faceshield as appropriate. |
| Hand Protection | PVC, neoprene or nitrile rubber gloves. |
| Body Protection | Overalls or similar protective apparel. Enclosed footwear. |

---

### 9. Physical and chemical properties

| Appearance | Clear bright yellow liquid |
Product Name: JCB HYDRAULIC FLUID HP 46

10. Stability and reactivity

Reactivity: Reacts with incompatibles.
Chemical Stability: Stable under normal conditions of use and storage.
Conditions to Avoid: Heat and other sources of ignition.
Incompatible Materials: Strong oxidizing agents.

11. Toxicological Information

No toxicity data available for this product.

Ingestion: Not normally considered to be a hazard by ingestion at appropriate usage.
Ingestion may cause slight stomach irritation and discomfort.

Inhalation: Not normally considered to be a hazard due to the non-volatile nature of the product.
Inhalation of oil mist/vapour from heated material may cause irritation of the upper respiratory system.

Skin: Contact with skin may result in irritation.

Eye: May cause slight eye irritation.

Respiratory Sensitisation: Not considered to be a respiratory sensitiser.
Skin Sensitisation: Not considered to be a skin sensitiser.

Germ Cell Mutagenicity: Not considered to be a mutagenic hazard.

Carcinogenicity: Not considered to be a carcinogenic hazard.

Reproductive Toxicity: Not considered to be toxic to reproduction.

STOT-Single Exposure: Not expected to cause toxicity to a specific target organ.
STOT-Repeated Exposure: Not expected to cause toxicity to a specific target organ.
Aspiration Hazard: Not considered to be an aspiration hazard.

No data is available for this product.

13. Disposal considerations

Dispose of waste according to federal, EPA, state and local regulations.

14. Transport information

Transport Information
UN Number (Air Transport, ICAO)

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG).
Not regulated for air transport according to International Air Transport Association (IATA) Dangerous Goods Regulations.
Not regulated for sea transport according to International Maritime Dangerous Goods (IMDG).

15. Regulatory information

Poisons Schedule

Not Scheduled
